Assignment for Final Class Session (May 9 or 10)

Each student is to read the final two chapters (12 and 13) of:

The 9/11 Commission Report

Each student is also to read at least one additional chapter, which s/he may choose or which may be assigned. S/he needs to come to class prepared to related that chapter to the report s conclusions.

Specifically, each student should be prepared to discuss two questions:

Are the Commission s conclusions and recommendations responsive to the problems highlighted in his/her chapter?

Was the creation of the Department of Homeland Security in 2002 a plausibly effective response to the events/issues highlighted in his/her chapter?

There will be time for every member of the seminar to address these questions.

A sign-up sheet will be available during the break for both the Monday and Tuesday classes. Those who are absent or otherwise do not make a choice will be assigned a chapter.
